PROFESSIONAL EXPERIENCE

Software Engineer

Brainvire Infotech

01/2022 – 02/2024 | Ahmedabad, India

- Worked on various Magento projects, solving bugs and implementing new functionality, including extensive work on the Linen Club project.
- Optimized code and ensured adherence to coding standards across multiple projects to improve performance and maintainability.
- Managed and resolved client-assigned tickets via Azure, ensuring timely delivery and resolution of tasks in line with project requirements.

Software Engineer Trainee

SPEC INDIA

01/2022 – 09/2022 | Ahmedabad, India

- Completed training in core Java, covering key concepts like object-oriented programming, applets, JDBC, AWT, and Swing for building GUI-based applications.
- Worked on a client project, creating interactive user interfaces using AWT and Swing components.

PHP MySQL Intern

Akash Techno labs

05/2021 – 06/2021 | Ahmedabad, India

- Learned and applied core PHP syntax, functions, and control structures.
- I have worked on PHP CRUD operations (Create, Read, Update, Delete) for database management.
- Developed projects utilizing PHP arrays, loops, and error-handling techniques, and implemented RESTful APIs with CRUD functionality using PHP and MySQL.
